

# 3 NEW WORKSHOPS WITH CATHY CLAYCOMB AT *ART FOR FUN!* Studio and Gallery

## FRIDAY, OCTOBER 8, 2010

### **GLASS STRAIGHT UP**

All skill levels. 9 a.m. - 5 p.m.

Opulent free form glass joins with graceful metal shapes to create sculptural works of art. Work with one of a kind elements as well as flat sheet glass to create contemporary multi-dimensional designs. Non-traditional surface decoration might involve fused elements, pewter attachments, and clever camouflage of soldered seams.

## SATURDAY, OCTOBER 9, 2010

### **STICKS AND GEMSTONES**

All skill levels. 9 a.m. - 5 p.m.

Combine your love of stained glass and beading in one class! Combine non-traditional glass objects to fabricate ultra contemporary panels, using Kokomo rondels, found items or head glass in combination with semi-precious and stone beads! Embellish copper or brass framework with decorative solder and gracefully wired and soldered turquoise, red coral, jade and more.

## SUNDAY, OCTOBER 10, 2010

### **THINKING OUTSIDE THE BOX**

All skill levels. 9 a.m. - 5 p.m.

Work a stained glass masterpiece without foiling or leading! Start by gilding oak to showcase your glass design. Multiple layers of glass will be chosen for its peculiarities, its special qualities and its texture rather than for its light transparency. Work with cold fusion and "Just Make Glass" without the constraints of lead, solder, or flux! Sharpen cutting skills as you begin to think of glass as a sculptural art object rather than a color component.

**FEES:** 1 WORKSHOP \$200, plus some supplies  
2 WORKSHOPS \$390, plus some supplies  
3 WORKSHOPS \$580, plus some supplies
